

Dear Parents and Students,

Please use the folder of academic engagement activities to help you stay focused on your learning while we are apart. Remember this is just a way to keep practicing the skills we have already learned and will not be graded!

Use these choices to engage for an hour a day including 20 minutes of reading. You can break the time up any way that works best for you and your child. All teacher websites and google classroom are still accessible as well.

We miss being in school with all of you, but know that what is happening is to keep us all safe and healthy. We hope to see you all soon! Parents, please contact your child's teacher if you have specific questions. If you need any materials printed, please call the main office to schedule a time to be picked up. 217-586-2811.

All the best,
3rd Grade Teachers
